

Component	Description & Use	Colour Finish	Code
 	<p>Thin lining sheet Plain Colour or Wood grain finish matches composite panels 2440 x 1220 mm sheet 3 mm nominal thickness</p> <p>Use: Wall and ceiling lining</p> <p>White Acrylic thin sheet 1220mm x 2000mm x 2mm Use: For shower wall lining.</p> <p>Shower door up to 650mm wide</p>	<p>Glacier White</p> <p>Polygloss</p> <p>Satin White</p> <p>Chalk</p> <p>Cameo</p> <p>Divine Oak</p> <p>Hamilton Oak</p> <p>Coastal Elm</p> <p>White Acrylic</p> <p>White or anodised alum Frame</p>	<p>T204</p>
Component	Description & Use	Colour Finish	Code
	<p>Thin Sheet Joints 3mm 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: Straight jointer between two 3.6mm thin wall / ceiling panels</p>	<p>White</p> <p>Chalk</p> <p>Cameo</p> <p>Tan</p>	<p>P567</p>
	<p>Thin Sheet End Cap 3mm 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: Trim ming edges of 3mm thin sheet</p>	<p>White</p> <p>Chalk</p> <p>Cameo</p> <p>Tan</p>	<p>P268</p>

	Thin Sheet Internal corner 3mm 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: 90° jointer for thin sheet internal corner only	White Chalk Cameo Tan	P266
---	--	--	-------------

Component	Description & Use	Colour Finish	Code
	Duralite® Composite Panel Plain Colour or Wood grain Finish 1220 x 2440 mm sheet 19.8mm nominal thickness Use: The construction panel for internal walls and cabinetry	Glacier White Hamilton Oak Divine Oak Coastal Elm Polygloss Satin White	D101

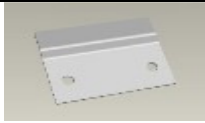

Component	Description & Use	Colour Finish	Code
	Set A - Corner Base 90° Corner Jointer 2.4 metre lengths rigid extrusion (requires P522 to complete set) Use: Right Angle Connector for Duralite® Composite panels and décor trim	Natural	P467
	Set A - Décor Corner Trim 2.4 metre lengths rigid extrusion matching colour for Duralite® panel (requires P467 to complete set) Use: Cover cap for 90° corner jointer P467	White Tan	P522
	Composite Panel Jointer 45° 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: 45° jointer between panels, external and internal corners.	White Tan	P545
	90° Overlay Corner 2.4 metre lengths rigid extrusion matching colour for Duralite™ panel Use: Forms an external 90° corner trim. Allows for one panel to be overlaying and one panel to butt at 90°	White Tan	P757

	<p>Edge Cap Self Adhesive 45 metre roll flexible extrusion matching colour for Duralite® panel Purchased per metre Use: Flexible edge trimming for Duralite® Composite Panel D101. Trims openings and shaped edges</p>	<p>White Tan</p>	<p>P341</p>
Component	Description & Use	Colour Finish	Code
	<p>Ceiling - Base 2.4 metre lengths rigid extrusion Use: To connect Duralite® panels to ceiling or floor – see manual for each use.</p> <p>Double Ceiling – Base</p>	<p>Natural Natural</p>	<p>P469 P468</p>
	<p>Décor Base Trim 20 metre rolls flexible extrusion matching colour for Duralite® panel Purchased per metre Use: Knock in cover for P469</p>	<p>White Tan</p>	<p>P336</p>
	<p>U Channel 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: Rigid end finishing trim for Duralite® composite panel</p>	<p>White Tan</p>	<p>P466</p>
	<p>F Channel 2.4 metre lengths rigid extrusion matching colour for Duralite® Composite Panel Use: Rigid end cap with connector. Connecting panels to floor, walls and bench tops. Shelving edge.</p>	<p>White Tan</p>	<p>P521</p>
	<p>Composite Panel Jointer 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: Straight jointer between two Duralite® composite panels</p>	<p>White Tan</p>	<p>P558</p>

Component	Description & Use	Colour Finish	Code
	<p>Edge Tape 24mm Glued</p> <p>50m roll glued 24mm tape. Colours matched to panels</p> <p>Use: For edge banding Duralite™ Composite Panel D101</p> <p>24mm x 2mm – edgeband machine</p> <p>Also available 22mm x 1mm – iron on – all colours</p>	<p>White</p> <p>Divine Oak</p> <p>Hamilton Oak</p> <p>Coastal Elm</p>	PG725

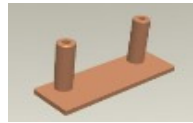

Component	Description & Use	Colour Finish	Code
	<p>Screws: 6g 12mm mushroom pozi drive self tapers (Packs per 200)</p> <p>Use: Screws for attaching Duralite® components to walls, ceilings, catch plate, utility plate and Duralite® panels</p>	Zinc	S612
	<p>Screws: 6g x5/8 counter sunk pozi drive (packs per 100)</p> <p>Use: For push locks</p>	Zinc	S615
	<p>Screws: 8g 30mm mushroom pozi drive self tapers (packs per 100)</p> <p>Use: Screw for attaching catch block to Duralite® composite panels</p>	Zinc	S830
	<p>Screws: Drawer Rails through 8mm spacer (packs per 100)</p> <p>Use:- Drawer Rails</p>	Zinc	S620
	<p>Silent Bumper (100 per sheet)</p> <p>Use: Fix to door as soft buffer.</p>	Clear	B200

Component	Description & Use	Colour Finish	Code
	<p>Corner block</p> <p>Use: For connecting shelving and some panel components</p>	White	CBL44

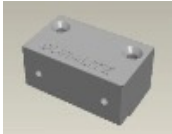

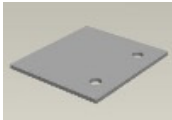

Component	Description & Use	Colour Finish	Code
	Ceiling Bracket Duralite® Use: Anchor to hold ceiling base P469 in place	Stainless Steel	B881
	Corner Clip HM Template Use: Attach at base on corner for P336 to fit neatly on corners	Natural	C642
	Cable Tube (10mtr pack) Use: To provide conduit for 12volt wiring through VHD poly in composite panel	Green	C500

	Hollow wall anchor plus screw For drawer fronts and spring lifters on overhead cupboards		HWA-M4
---	--	--	---------------

	Cup hinge with mount - 110 full overlay Cup hinge with mount - 110 half overlay		CH107 CH102
--	--	--	------------------------------

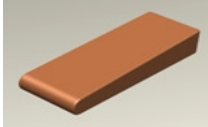

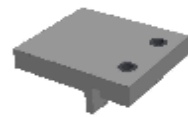

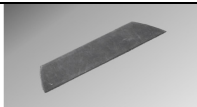

Component	Description & Use	Qty per set	Code
	Door Hinge Duralite® (H202) Nickel – silver colour only Use: Doors and cupboards	1 x Hinge 1 x Base plate	H202
	Hinge Base Plate Duralite® Use: Anchor for S510 screws hinges in panel		

Component	Description & Us	Colour Finish	Code
	Ali Rail – 2.4m lengths Use: For top cabinet rail and drawer catches	Aluminium	DRLB2.4

Component	Description & Use	Qty per set	Code
	Spring Lift up sml (GSTY) Use: For lift up cupboard doors		SLFT
	Catch Block Duralite® (B102) Use: To support the utility plate bracket	1 x spring lift up 1 x Catch block 1 x Utility plate	
	Utility Plate Bracket Duralite® (U456) Use: Fixes to catch block and can support the spring lift up stay		

Component	Description & Use	Qty per set	Code
	Single Push lock 19mm (L161) Use: Lock for cupboards and drawers.		L161s
	Push Lock Button (L190) Use: Opener for Push Lock L161	1 x push lock 1 x push lock button 1 x push lock rosette 1 x catch block 1 x catch plate	
	Push Lock Rosette (L191) Use: Trim for Push Lock Button L190		
	Catch Block Duralite® (B102) Use: To support the catch plate for push lock.		
	Catch Plate (C751) Use: Door lock catch in cupboards and drawers		
	Double Double sided Pushlock (L161DLW) Use: For shower door *Other components to the double set are the same as for the single set, with a slight variance in quantity of some of the componentry.		
			1 x dbl push lock 2 x push lock button 1 x push lock rosette 1 x catch block 1 x catch plate

Component	Description & Use	Qty per set	Code
  	<p>Drawer Sides (pair) Use: Metal sides for draw, set includes slide rail – Low = 86mm high sides Med = 118mm high sides High = 150mm high sides</p> <p>Drawer Front Fix Bracket (L & R) x 1 Use: Comes with drawer side. Connects drawer front with hollow wall anchors</p> <p>Hollow wall anchor (8 per drawer) Use: Fixing drawer runners to cabinet sides Drawer front to front fix bracket.</p>	<p>1 x pair drawer sides 1 x pair Front fix bracket (L&R) 8 x hollow wall anchor and screw</p>	

Component	Description & Use	Colour Finish	Code
	Hollow wall anchor setting tool		HWA-TG
	<p>Tamper Block Duralite®</p> <p>Use: Wooden knock in used to knock P336 into P469</p>		TB456
	<p>Jig Drilling Guide Duralite®</p> <p>Use: Template for drilling holes for hinge base plate H100</p>		JD630
	<p>Scribing Tool Duralite®</p> <p>Use: Marking out shape on P336 for internal corner</p>		SC001

Component	Description & Use	Colour Finish	Code
	Tecn Seal Silicone Sealant 300 ml cartridge Use: Filler to match Duralite® décor trim	Tan White	TS32

Component	Description & Use	Colour Finish	Code
	*Simson Adhesive (white) Cartridge 290ml Use: Contact adhesive for joining and securing Duralite® components. For gluing thin sheets to walls and ceiling	White	S703

	*Duralite® System Construction (CD only) available with order		MAN101CD
