

DURALITE® MODULAR SYSTEMS PTY LTD PARTS LIST

	Duralite® Composite Panel Plain Colour or Wood grain Finish 1220 x 2440 mm sheet 19.8mm nominal thickness 14kg per composite panel- (Glacier,Tuscan,CPL range) 18.5kg *HPL per composite panel Use: The construction panel for internal walls and cabinetry *CPL – Continuous Pressed Laminate *HPL – High Pressure Laminate	Aegean Glacier Tuscan Oak Greco Oak (CPL) * Chrystal White (CPL) * Warm Grey (HPL) Gloss White (HPL) Oyster Grey (HPL)	D101
---	--	---	--------------------

Construction Mouldings

	Set A - Corner Base 90° Corner Jointer 2.4 metre lengths rigid extrusion Use: Right Angle Connector for Duralite® Composite panels and décor trim	Natural	P467
	A - Décor Corner Trim 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Radius corner Use: Cover cap for 90° corner jointer P467	Tan White	P522
	Composite Panel Jointer 45° 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: 45° jointer between panels, external and internal corner	Tan White	P545
	90° Overlay Corner 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: Forms an external 90° corner trim. Allows for one panel to be overlaying and one panel to butt at 90°	(circle colour required) Tan White	P757
 	Ceiling - Base 2.4 metre lengths rigid extrusion Use: To connect Duralite® panels to ceiling, floor or walls – see manual for each use. Base-Ceiling/Floor (double) Shower internal corner moulding Fitted to internal shower corner . Shower lining fitted overlapping then P336 white décor trim is fitted to finish internal corner	Natural Natural	P469 P469-CD
	U Channel 2.4 metre lengths rigid extrusion matching colour for Duralite™ panel Use: Rigid end finishing trim for Duralite® composite panel	Tan White	P466

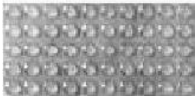

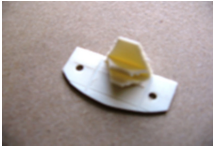

DURALITE® MODULAR SYSTEMS PTY LTD PARTS LIST

	Composite Panel Jointer 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: Straight jointer between two Duralite® composite panels	Tan White	P558
	Décor Base Trim 20 metre rolls flexible extrusion matching colour for Duralite® panel. Can be purchased as a 20m roll or per metre. Use: Knock in cover for P469	Tan White	P336
	Edge Cap Self Adhesive 45 metre roll rolls flexible extrusion matching colour for Duralite® panel Can be purchased as a 45m roll or per metre. Use: Flexible edge trimming for Duralite® Composite Panel D101. Trims openings and shaped edges.	Tan White	P341
	Edge Tape 24mm Glued and Preglued 24mm x 2mm tape. Colours matched to panels per metre Or 24 x 1mm iron on edgeband tape per metre Use: For edge banding Duralite® Composite Panel D101	Tuscan Oak Grey Match Greco Oak White White Gloss	PG725

Duralite® Fixings

	Screws: 6g 12mm mushroom square drive self tapers (Packs per 200) Use: Screws for attaching Duralite® components to walls, ceilings, catch plate, utility plate and Duralite® panels	Zinc	S612
	Screws: 6g x5/8 counter sunk pozi drive (packs per 100) Use: For Drawer rails through 4mm SP4 spacer	Zinc	S615
	Screws: (packs per 100) Use:- For push locks and CBL44 corner blocks	Zinc	S620
	Screws: 8g 30mm mushroom pozi drive self tapers (packs per 100) Use: Screw for attaching catch block to Duralite® composite panels	Zinc	S830

DURALITE® MODULAR SYSTEMS PTY LTD PARTS LIST

	Silent Bumper (100 per sheet) Use: Fix to door as soft buffer.	Clear	B200
	Drawer Spacer Use: Fixing drawer rail to side of cabinet with a S615 screw		SP4
	Screws: 5mm Euroscrew Use: With the CBL44 and ali rail drawer locking bar		E510
	Screws: 8g 30mm panhead and washer Use: Connecting 2 composite panels together ie end panels Screws: 8g 40mm panhead and washer Use: Fixing top rail to ceiling		SPW830 SPW840
	Cable Tube (10mtr pack) Use: To provide conduit for 12volt wiring through VHD poly in composite panel	Green	C500
	Corner Clip HM Template Use: Attach at base on corner for P336 to fit neatly on corners		C642
	Ali Rail – 2.4m lengths-Drawer locking Bar Profile Use: Ali Rail profile fitted across drawer opening Pushlock locks into profile holding drawer securely	Aluminium	DRLB2.4

DURALITE® MODULAR SYSTEMS PTY LTD PARTS LIST

	Corner block Use: For connecting shelving and some panel components Also secures each end of drawer locking bar profile for push lock catch	White	CBL44
---	---	-------	-------

Hinges

	Cup hinge with mount – 110 degree opening full overlay Cup hinge with mount - 110 degree opening half overlay		CH107 CH102
---	--	--	--------------------

	Gartner Hinge – Offset hinge for surface mounted doors fitted to U channel on opening	1 x Hinge	GAT45
---	---	-----------	-------

Door Lifters

   	Duo lid stay Use: For lift up cupboard doors Requires push lock to latch 2 x S15 screws 2 x Euro screws 1 x catch block	1 x Duo lid stay set 2 x S15 screws 2 x Euro screws	DUO
---	--	--	-----

	Freespace Door lift up Use: For overhead cupboards with no push locks (self closing) Flush full face doors, self securing - push locks optional	FSPC
---	---	------

Push Lock Sets

   	Single Push lock 19mm (L161) Use: Lock for cupboards and drawers. Push Lock Button (L190) Use: Opener for Push Lock L161 Push Lock Rosette (L191) Use: Trim for Push Lock Button L190 Catch Plate (C751) Use: Door lock catch in cupboards and drawers and top drawers with no drawer locking bar profile	1 x push lock 1 x push lock button 1 x push lock rosette 1 x catch plate	
	Double Double sided Pushlock white (L161DLW) Use: For shower door *Other components to the double set are the same as for the single set, with a slight variance in quantity of some of the componentry.	1 x dbl push lock 2 x push lock button 1 x push lock rosette 1 x catch plate	

Drawer Sets

    	FUNKTION Drawer Sides (pair) Use: Metal sides for draw, set includes slide rail – Low = 86mm high sides Med = 118mm high sides High = 150mm high sides Drawer Front Fix Bracket (L & R) x 1 with expanding dowel Use: Comes with drawer side. Connects drawer front E510 Euroscrew x 2 Use: With the CBL44 and ali rail drawer locking bar SP4 Drawer spacer x 4 Use: Fixing drawer rail to side of cabinet with a HS3.5 hospa screw S615 Screws: Hospa screws x 4 – S615	DRSL40/45/50 86x400mm 86x450mm 86x500mm	
		DRSM40/45/50 118x400mm 118x450mm 118x500mm DRSH40/45/50 150x400mm 150x450mm 150x500mm	

 	ALTO drawer set – soft close Drawer Sides (pair) Use: Metal sides for draw, set includes slide rail – runners, back panel brackets and front fix brackets Low = 84mm high sides Med = 135mm high sides High = 199mm high sides Screws :10g x 16mm s/s pozi drive	ALTOL40/45/50 84x400mm 84x450mm 84x500mm	
		ALTOM40/45/50 135x400mm 135x450mm 135x500mm ALTOH40/45/50 199x400mm 199x450mm 199x500mm	

DURALITE® MODULAR SYSTEMS PTY LTD PARTS LIST

	Thin lining sheet Plain Colour or Wood grain finish matches composite panels 2440 x 1220 mm sheet 3 mm nominal thickness Use: Wall and ceiling lining *CPL-Continuous pressed laminate *HPL – High Pressure laminate Acrylic Thin sheet for shower wall 1200mm x 2000mm x 2mm-thickness 800mm x 2000mm x 2mm- thickness	Aegean Glacier Tuscan Oak Chrystal White (CPL)* Greco Oak (CPL) Warm Grey (HPL)* Gloss white (HPL) Oyster Grey (HPL) White shower acrylic	T204
	Thin lining sheet Plain Colour finish on hoop ply radius 60-70mm 2440 x 1220 mm sheet 3 mm nominal thickness Use: Ceiling lining	Aegean Glacier	T204GLCHP

Thin Liner Mouldings

Component	Description & Use	Colour Finish	Code
	Thin Sheet Jointer 3.1mm 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: Straight jointer between two 3mm thin wall / ceiling panels	Tan (for woodgrain) White	P567
	Thin Sheet End Cap 3.1mm 2.4 metre lengths rigid extrusion matching colour for Duralite® panel Use: Trimming edges of 3mm thin sheet	Tan White	P268
	Thin Sheet Internal corner 3.1mm 2.4 metre lengths rigid extrusion matching colour for Duralite® 3mm panel Use: 90° jointer for thin sheet internal corner only	White Tan	P266

Sealants

	Tecni Seal Silicone Sealant 300 ml cartridge Use: Filler to match Duralite® mouldings & panels Tan White	TS32

	*Simson Adhesive (white) Cartridge 290ml Use: Contact adhesive for joining and securing Duralite® components. For gluing thin sheets to walls and ceiling	White	S703
---	---	------------------	-------------

Specialty tools			
	Scribing Tool Duralite® Use: Marking out shape on P336 décor trim for internal corner	Aluminium	SC001
	Tamper Block Duralite® Use: Wooden knock in block used to knock P336 décor trim into P469		TB456
